30 000 lbs and over	Québec/Ontario → Western Canada	Phone Email		

<sup>1</sup> Rule of minimum 10 lbs per cubic foot is applied to the total weight of the shipment.

Ex 1: If a shipment total weight is 170 lbs and its 7 lbs per cubic foot, you need to convert it to have a minimum of 10 lbs per cubic foot.

$$170 \text{ lbs} \times \frac{10 \text{ lbs}/\pi^3}{7 \text{ lbs}/\pi^3} = 243 \text{ lbs}$$

Contact Purolator, because the weight is less than 250 lbs.

Ex 2: If a shipment total weight is 170 lbs and its 4 lbs per cubic foot, you need to convert it to have a minimum of 10 lbs per cubic foot.

$$170 \text{ lbs} \times \frac{10 \text{ lbs}/\pi^3}{4 \text{ lbs}/\pi^3} = 425 \text{ lbs}$$

Contact the LTL carrier above, because the weight is more than 250 lbs.

<sup>2</sup> Total max weight for one piece is 150 lbs, if you have a piece more than 150 lbs, please call a LTL carrier.

The "under 250 lbs" rules applies for shipment for which each piece' weight is less than 150 lbs (individually).

Ex 1: 3 boxes of 65 lbs, 50 lbs and 55 lbs, for total weight of 170 lbs: no box weighs more than 150 lbs (individually) and the total shipment is under 250 lbs: **Purolator**

Ex 2: 3 boxes of 165 lbs, 25 lbs and 20 lbs, for a total weight of 210 lbs: total shipment is under 250 lbs, but one box weighs more than 150 lbs: **LTL carrier**

Please note: maximum length: 216 in (per piece)
